This cemetery has not been transcribed since 1981, however below is a list of unmarked graves transcribed from the book Unmarked Graves of Montgomery County Texas.

This compilation of records was ascertained by comparing the six volumes of Montgomery County Cemeteries, published by the Montgomery County Genealogical & Historical Society, Inc. surveyed by Oveta & Horace Wright in 1978, and all extant Montgomery County Texas Funeral Homes records.

Funeral Home records consulted (also published by the MCG&HS) are referred to in these records are referred to as:

W-Wahrenberger Funeral Home

C- Cockerham-Branch-Marland Funeral Home

F- Forest Hill's Funeral Home

M- Metcalf Funeral Home

The number following the letter gives the volume number and the number following: _ is the page number.

These are unmarked graves as of 1978. These graves could have been overlooked by the cemetery surveyors or the grave markers may have been broken or unreadable. It is also possible that recorders misread the marker.

There are many early unmarked graves in Montgomery County. Private cemeteries have been lost forever. The only available information as to where a person was buried is the funeral home records, and it is not altogether impossible that errors occurred in recording the information in the funeral home records. All the above funeral homes are out of business except Metcalf's and all of their records were lost in the fire in 1998.

***** PLEASE NOTE**** the ones with click here....may have markers. I found this death record while transcribing the Metcalf Funeral Home books, so wanted to get them online.*
