## FOREWORD

This book is divided into two sections: An Alphabetical List of Grooms' Names and An Alphabetical List of Brides' Names.

At some point, a portion of the early marriage records were transcribed and typed. Books Two and Three were combined into one volume, which is indicated by using 2/3 in the book column. There is also a supplement to this book, which is identified as S2/3.

To increase the chances of finding the person you are searching for, it is suggested that you try every conceivable spelling of the name being sought.

In any research there is no better source than the original. These marriage records are available at the County Clerk's Office in Woodville, Texas, and on film in several genealogy libraries.
