Dear friends,

At the annual meeting, initial plans were developed for the restoration and preservation of the very old gravestones in the cemetery. Charles Downey, Emmett Niederhofer and James L. Browder were asked to select the stones that most needed attention and have them repaired and/or straightened. \$2000 was designated for this project this year, and after we hear their report at the next meeting, we will decide the future of the restoration and preservation project. We appreciate the work these men did.

Mrs. Agnes Williams and her DAR group, along with some of our own, met at the cemetery on October 29 and made a record of the grave markers. I expect we'll see sometime next year the finished product of Agnes' efforts. We appreciate all the time, money and labor that she put into this project.

We've been computerized! Charles Downey has put our mailing list on his computer, and I for one am especially grateful for the mailing labels and the printouts that he does for us.

With best wishes for a happy holiday season,
