Texas, Deaths, 1890-1976 from www.familysearch.org

*** We have not been able to locate death certificates to validate that these two individuals are buried in this cemetery. We have received the following information of the owner and former owner of the private property where this cemetery is located on July 24, 2017: I (Ghalib Hamidi ghalib.hamidi@gmail.com) own the property in which the Sapp family cemetery is located. The previous owner of the property is my neighbor and a good friend.**

She is adamant that no new person was buried at this cemetery after 1977. Yet, FAG show two people buried in after this date--1984 and 1992 respectively. The dates are so recent, that there had to be a record in the county of their burial location. I have contacted this FAG contributor and she has not responded.

Also, in 2009, another contributor at FAG reported that there are only two tombstones remaining at the site and all other graves are unmarked. Yet, FAG has list of 10 graves at the site.
